

Global Medical Support & Response

KINETIC GLOBAL HAS REINVENTED MEDICAL RESPONSE WITH AN INNOVATIVE, STREAMLINED SOLUTION.

Kinetic Global's redundant Global Security Operations Centers are staffed 24/7 with medical and security personnel to advise you and your travelers worldwide.

Kinetic Global puts the care of your employees first at all times, offering direct access to our team of trained trauma doctors where you can receive telemedicine and then be directed to the closest medical facility (if necessary) where we will assert medical continuity. Kinetic Global understands how crucial it is to get medical attention quickly and efficiently.

Kinetic's portal includes all services you need to safeguard your team. Kinetic Global's Medical Response and Support provide rescue and evacuation services when travelers become injured or sick (including COVID-19) or their safety is threatened.

Depending on your requirements and global footprint, different levels of Global Medical Support and Response are available:

- Decision analysis and support from our expert staff.
- Advisory and assistance via phone and email from paramedics, nurses, physicians, and more.
- 24x7 access to medical response teams (including emergency action planning, training, support, and guidance) anywhere in the world.
- Deployable medical personnel and former military special operations personnel provide a boots-on-the-ground response for large-scale medical and security evacuations and extractions.

Percent of Feature Coverage Among Competitors

- Kinetic Global | 100%
- Everbridge | 7%
