

COMPETITIVE COMPARISON

Personal Safety App

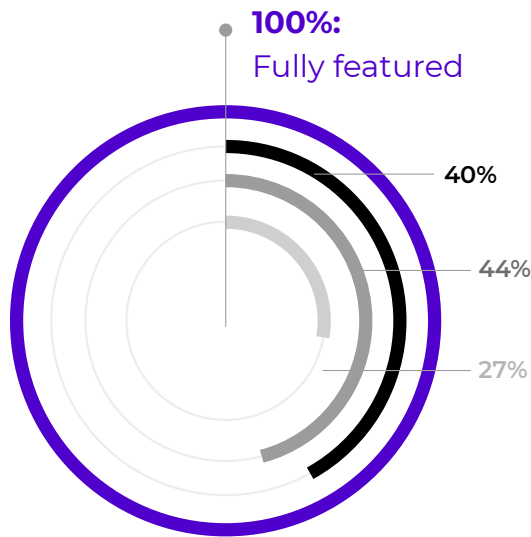

The idea behind the Kinetic Global personal safety app is for employees to have access to the safety resources and support they need in an emergency.

From a single app, employees are provided 24/7 situational awareness of threats and events in their immediate vicinity in addition to on-demand protection when they find themselves in a vulnerable situation where they may need emergency and/or medical services.

With an always-on connection to Kinetic Global's 24/7 Global Security Operations Center, the personal safety app can summon help or medical support immediately.

Take the burden off your internal teams when it comes to providing safety and/or medical assistance to your employees in need.

What good is an employee safety app without employee adoption and buy-in? Kinetic Global's app adoption processes are world-class. In fact, Kinetic Global adoption rates are 3x the industry standard - which means your employees get the protection they need and you get the peace of mind you deserve.

Percent of Feature Coverage Among Competitors

- Kinetic Global | 100%
- Everbridge | 40%
- Onsolve | 44%
- Alert Media | 27%
